

# 公司简介

## Company Profile

BRD established in 1995, is one of the earliest construction materials manufacturers. With years of efforts in R&D and innovation, we successfully produced and applied PUR and PIR sandwich panels, Rock wool panels, Garage Doors, Decorative insulation Panel, Wall cladding System, Steel frame structure, and other energy saving building materials. With production area in 3000 thousand square meters and staff over 500, BRDECO is committed to making the buildings more environmentally friendly and energy saving. Advanced technical thought and modern technology allows us to create products that fully meet the needs of today's investor.

BRDECO has got ISO9001 and TUV certification, and our products have got CE certification. The distributor covers more than 21 cities in the world. The salesnet has covered over 52 countries and places, such as America, Canada, Russia, Peru, Vietnam, Trinidad and Tobago, Australia, Sweden, and some other countries in Europe, Southeast Asia, Southern Africa and other places.

## Six cteristics

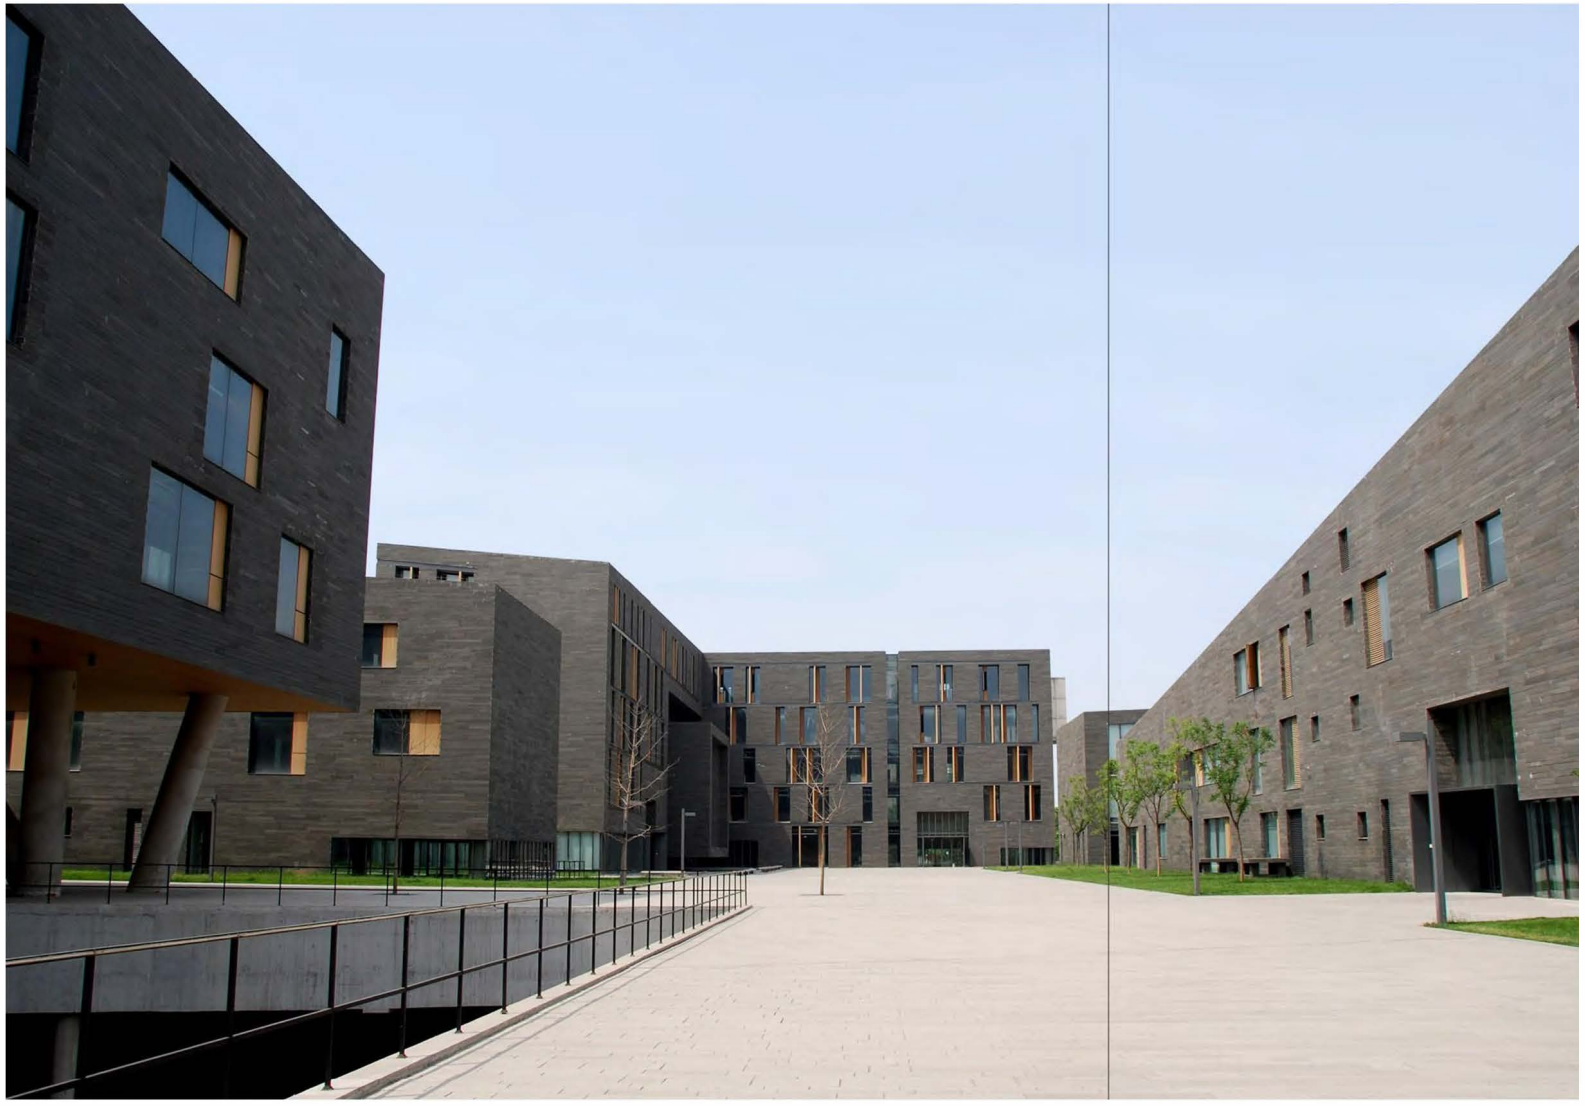

Light weight and safety | Flexible, Bendable | Diversify textures

Efficient and integrated | Personalized, customizable | Durable

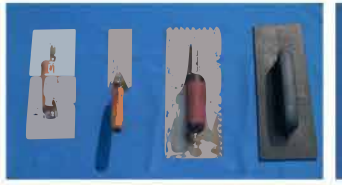

Construction description

## 一、Consruction Situation

| Allowed tolerance and inspection | | | | |
|---|---|---|---|---|
| | Item | Allowed Tolerance | | Inspection |
| | | Normal Plastering | Advanced Plastering | |
| 1 | Verticality | 4 | 3 | 2m vertical ruler |
| 2 | Flatness | 4 | 3 | 2m guiding rule |
| 3 | Concave/Convex | 4 | 3 | square master |
| 4 | split line | 4 | 3 | 5 meter ruler |
| 5 | Dado | 4 | 3 | 5m ruler |

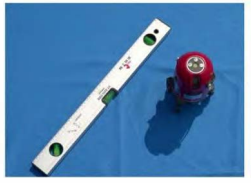

## 二、Installation Tool

Plaster trowel, perching knife, Saw trowel, Wooden trowel

Knife, Ink marker, Ruler

Gradienter

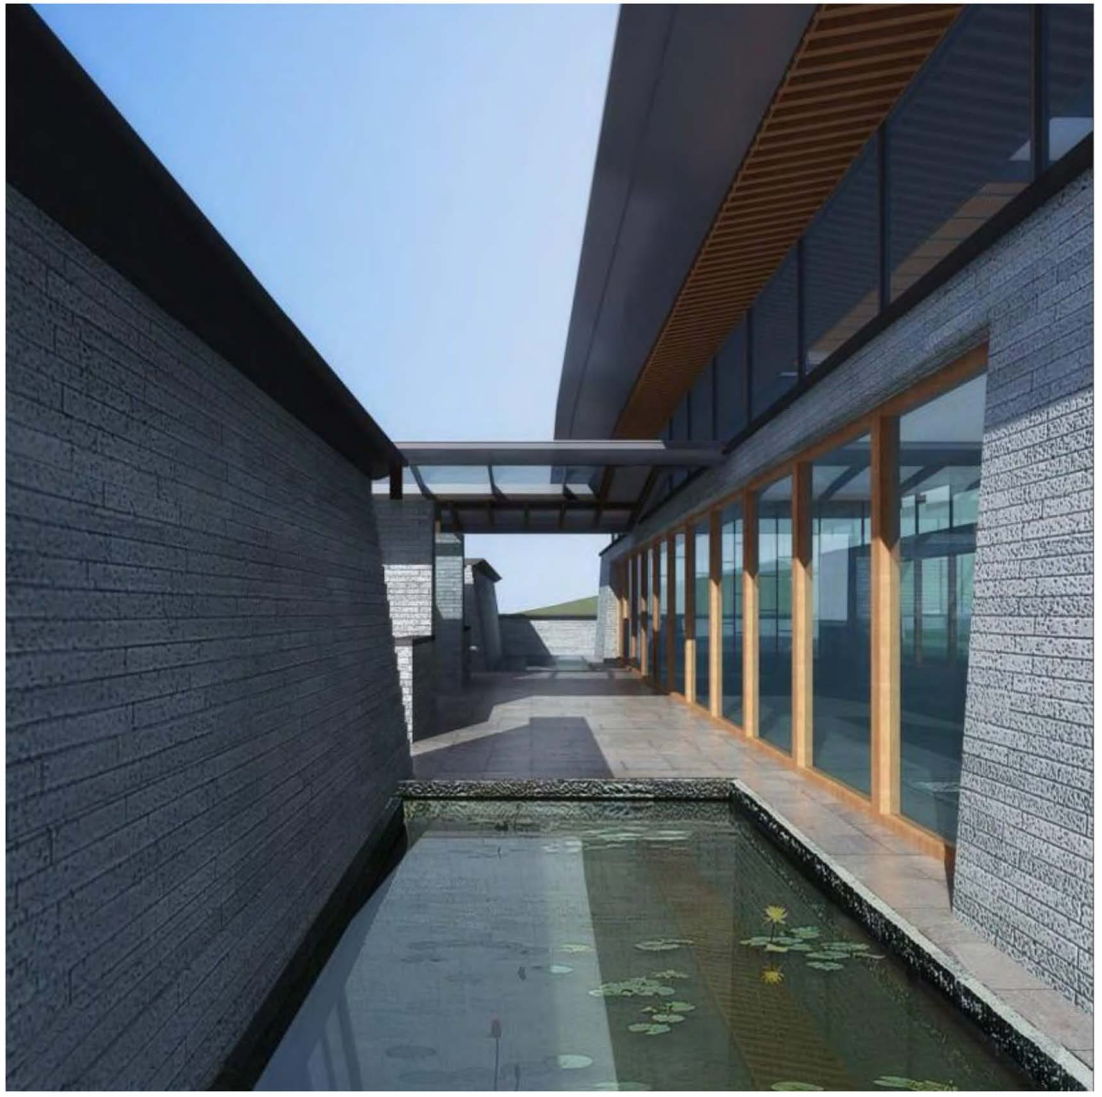

Seal bag, Seal tool

Electric blender

Brush, dry sponge

## 三、Installation

Bottom protective coating

Vertical and Horizontal Line

Mix mortar A and mortar B based on 4：1, Mixing up to 10 to 15 minutes

Bottom apply mortar up to 80% area , then use saw trowel

Install according lines, from bottom to top, fist exposed corners, then adjust spaces

Use wooden trowel spank panels

Fill spaces with sealant gap

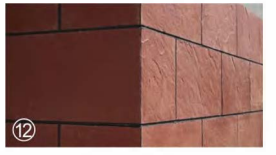

when semi dry using sealant tool to shape it

Clean the space with trowel

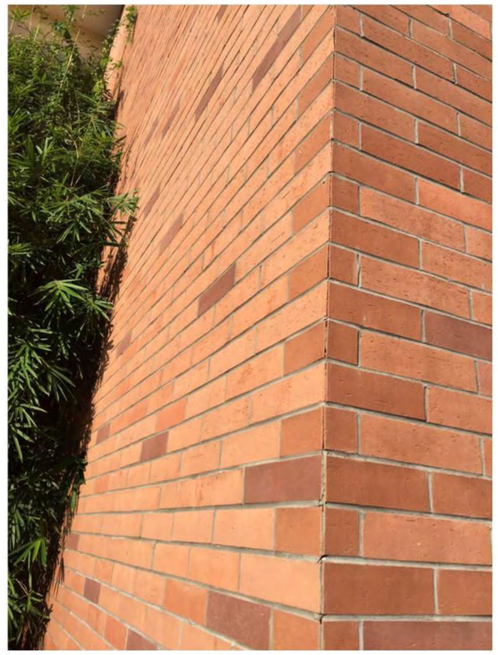

Using Sponge clean panels

Finish

## Light weight and safety

Weight is real stone 1/20; Wall cladding system 1/10; Tile 1/6.
It is the most safety wall decoration materials.

## Flexible, Bendable

**It can be install in square,round and arch buildings.**

## 个性化、可定制

Personalized, customizable

生态石可以根据客户需要的尺寸，工厂预制成型。

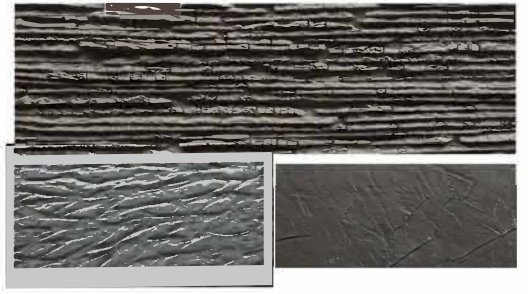

## 纹理多样化

Diversify textures

生态石可以完美复制大自然几乎所有的纹理。

色彩天然、永不褪色；纹理清晰、浑然天成。

## 高效、集成

### Efficient and integrated

生态石采用湿贴工艺，不需采用轻钢龙骨或扣减，现场直接铺贴，可以大大缩短工期。

## 耐久

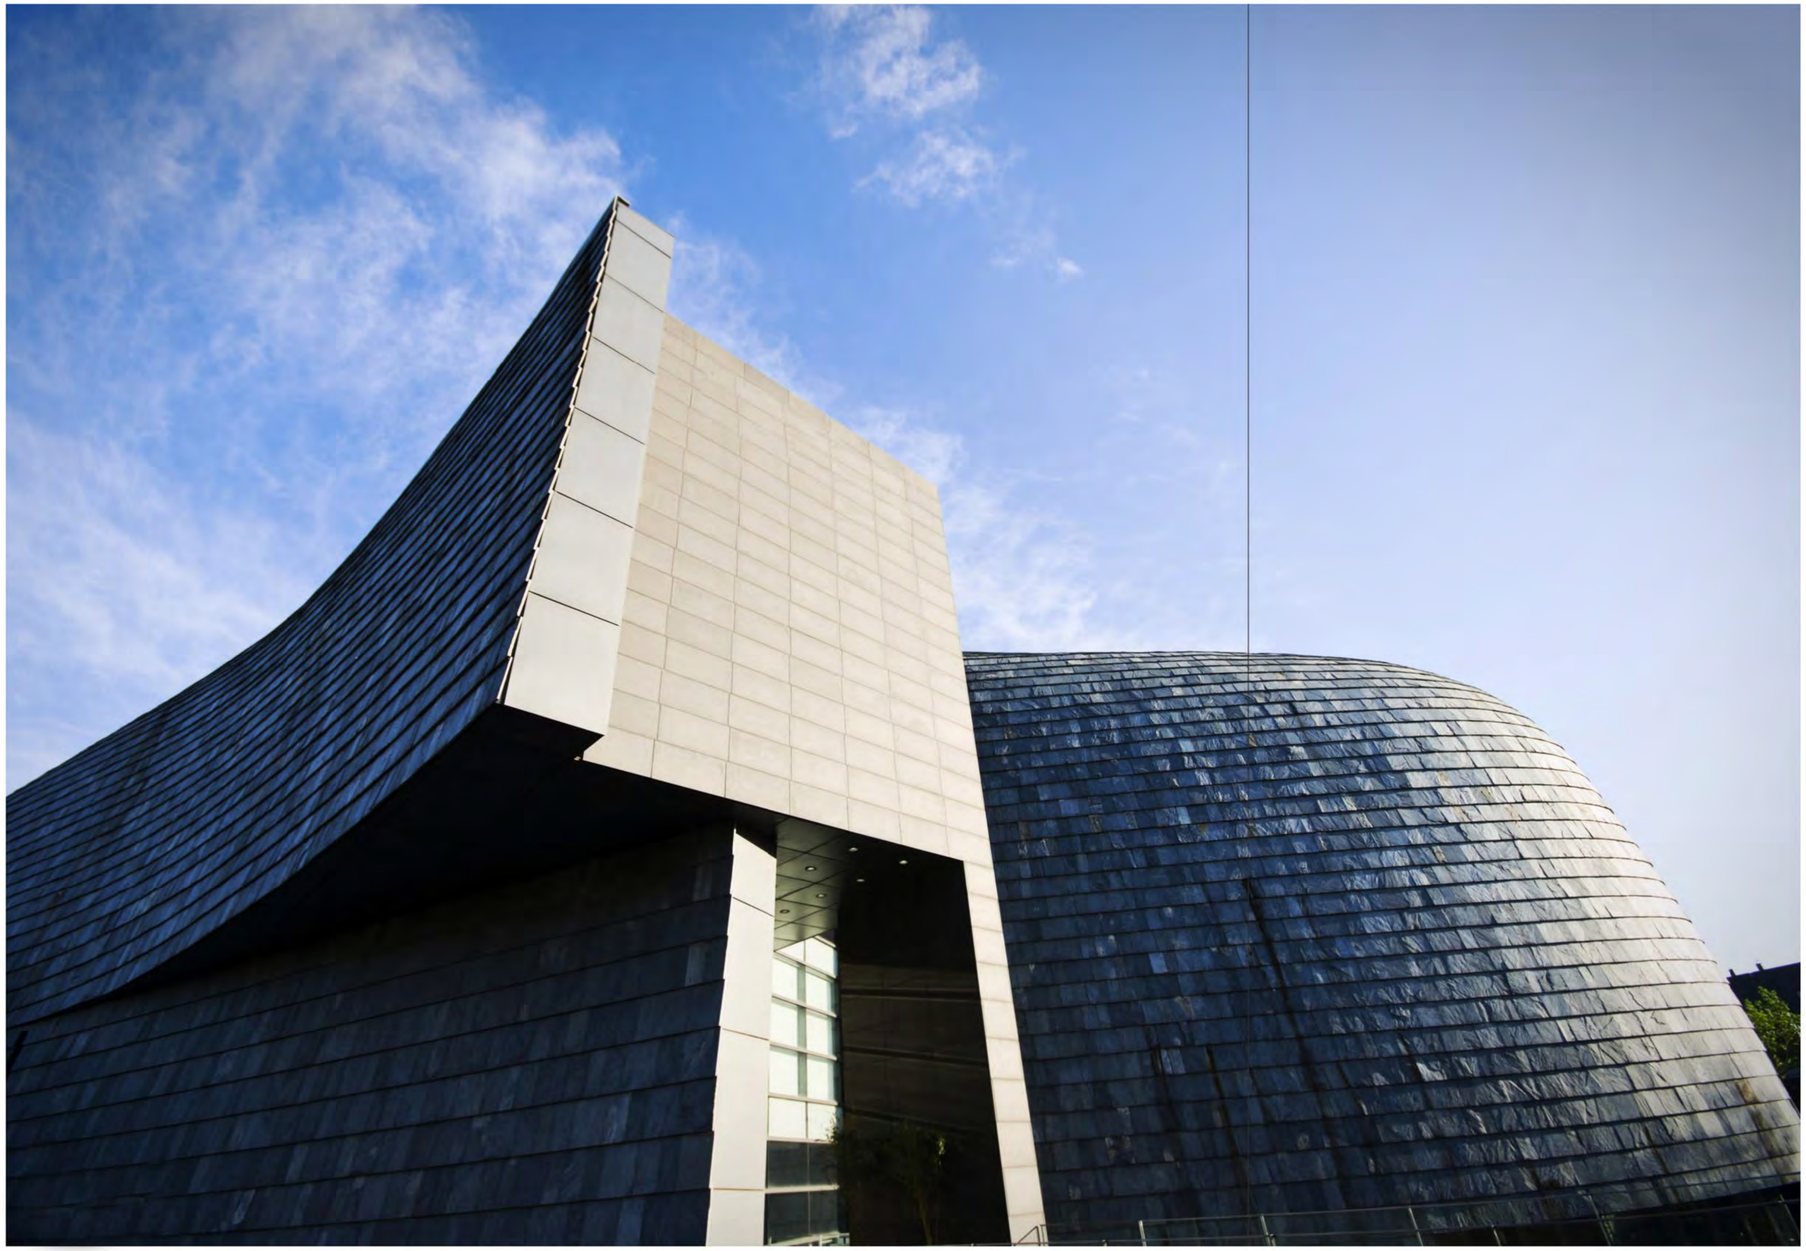

### Durable

百代生态石经2000小时加速老化试验（相当于25年），不粉化、不起皮、不开裂；理论上讲，生态石可以做到与建筑物同寿命。
